### Back to School: Swine Flu 411

With the start of school just around the corner, it's important that we, and our families, take the necessary precautionary measures to protect

### Greetings!

We at Liberty welcome everyone back from the summer. With the start of fall upon us, as a statewide provider of homecare services, we are excited about the upcoming months filled with CEU seminars, wine and cheese events, holiday parties and other events that will provide an opportunity to come see what Liberty Healthcare Services has to offer its surrounding communities. In the meantime, please feel free to reach out to us for any assistance or questions.

Regards,

Kevin Zepp  
President, Liberty Healthcare Services

### September: Ovarian Cancer Awareness Month

"It is estimated that more than 15,500 women will die in the United States from ovarian cancer this year. Many women don't seek help until the disease has begun to spread. The symptoms of ovarian cancer are often subtle and easily confused with other ailments."

#### **Ted Kennedy's Battle with Brain Cancer**

The malignant brain tumor that took the life of Sen. Edward Kennedy was an aggressive form of brain cancer called a malignant glioma, CBS News medical correspondent Dr. Jennifer Ashton said on "The Early Show" Wednesday.

Kennedy, who was 76 when he was diagnosed, received aggressive treatments, such as surgery, chemotherapy and possibly radiation, Ashton said.

The prognosis for brain tumors like Kennedy's, Ashton said, is "very poor," with only a 50 percent survival rate within the first year of diagnosis, and only three months of survival if left untreated.
